Resolution: 12 MP (3023×4030)

Shutter Speed: $1/50$ s

ISO: 200

Exposure: -0.7 EV

File Type: PNG (2.3 MB)

Photo Description:

This portrait was taken using the iPhone 16 Pro's main back camera to capture a sharp, clean image without distortion. The camera was placed at a comfortable distance and slightly zoomed in to create a flattering headshot perspective. The background is simple so the attention stays on the expression and overall look.

Soft lighting was used to avoid harsh shadows and to keep the skin tone natural. The black outfit adds good contrast and gives the photo a neat, professional style.

Editing Details:

Brightened slightly to match natural skin tones

Added a little contrast for sharper detail around the face and hair

Mild warmth added to avoid a dull indoor cast

Background softened gently so the subject stands out

Kept edits minimal to preserve a natural, realistic appearance

What This Picture Represents:

This is a formal, professional-style headshot meant to look approachable and confident. The expression is calm and natural, making the photo suitable for portfolios, resumes, LinkedIn, project pages, or any academic or professional setting. The overall look is simple, clean, and focused — portraying a genuine and confident presence.
